

Call It Off

MOTHICA

Oh, we are souls dipped in gold
I know you don't think much about what we're told
I just want to be so bold to give up
I promise you that much
It's not easy on the run

Call it off, Call it off, Call it off
We don't what's out there
Call it off, Call it off, you know we're old
And I'll be by the books
Waiting and giving looks
Waiting for someone to

There are stars that'll never shine
I say it all the time
But that don't make it right
I feel your heartbeat even when you're so far away
That's all you had to say
I heard you whisper, I heard my name upon your mouth
Don't know what that's about

Call it off, Call it off, Call it off
We don't what's out there
Call it off, Call it off, you know we're old
And I'll be by the books
Waiting and giving looks
Waiting for someone to
