

# Chasing Light

MOTHICA

Ooh, just like we used to  
Now I feel like I don't even know you  
Ooh, just like we used to  
Ooh, just like we used to do

Take a sip babe, drinking every night now  
Going brave, I stay out all night  
So again forget  
So again I'm- I'm not alright

All we do  
Is cuddle in the same old place  
Now I know  
I don't wanna play this game

Now we both gone  
I've been chasing light  
Chemicals  
Just to ease my mind

Oh-oh-oh-oh, ooh  
Since you went away  
Thought you would but you don't  
Go-o-o-o-o  
I don't wanna wait  
You just say it like you won't

Ooh, just like we used to  
Now I feel like I don't even know you  
Ooh, just like we used to  
Ooh, just like we used to do

All we do  
Is cuddle in the same old place  
Now I know  
I don't wanna play this game

Now you gone  
I've been chasing light and chemicals  
Just to ease my mind  
And now you gone  
I've been chasing light and chemicals  
Just to ease my mind

Now we both gone  
I've been chasing light  
Chemicals  
Just to ease my mind
