

## Cheap Tricks

MOTHICA

I dont need your pretty words or your chains  
That you wear round your neck to pretend we're the same  
See the pout on your face  
To know what you're thinking

Talking like I'm holy  
Baby, I've been lonely  
No, you'll never know me  
Like you think you do  
I'm just like you

Now we wasted all our money  
Baby, we're living the dream  
No I'm not bitter  
But it's funny  
I guess we're one in the same  
Making cheap tricks look expensive  
So the crowd will remember your name  
If I do the same thing  
Only different  
Does that make me insane?

I remember every line we rehearsed  
All the right moves to make there's no room for mistakes  
It's a curse, it's a waste  
But I fall for it every day

Talking like I'm holy  
Baby, I've been lonely  
No, you'll never know me  
Like you think you do  
I'm just like you

Now we wasted all our money  
Baby, we're living the dream  
No I'm not bitter  
But it's funny  
I guess we're one in the same  
Making cheap tricks look expensive  
So the crowd will remember your name  
If I do the same thing  
Only different  
Does that make me insane?

Without all this smoke and mirrors  
Maybe we'd disappear  
And I  
And I

Now we wasted all our money  
Baby, we're living the dream  
No I'm not bitter  
But it's funny  
I guess we're one in the same  
Making cheap tricks look expensive  
So the crowd will remember your name  
If I do the same thing

Only different  
Does that make me insane?
