

Crossfire

MOTHICA

She said
"Don't worry about what I mean"
But I can't help but wonder
'Cause these words go straight into my brain
And I've never felt this way before

You got the nerve to get close to me
You'll be the match on the gasoline
Oh oh, oh oh oh
Maybe I'm my own worst enemy
You broke the curse that's haunting me
Oh oh, oh oh
Wanna get caught in the...

Crossfire
Put me on the wire now
Crossfire
I know it's gonna burn me out
Desire
I know it's gonna take me down
But I don't even care why you're so bad now

I don't think you know what you said to me
My sweet surrender, yeah
A choke hold that you don't need to release
'Cause I like the way it's holding me

You got the nerve to get close to me
You'll be the match on the gasoline
Oh oh, oh oh oh
Blame it on the pills or the dopamine
Hot to the touch but you're hard to read
Oh oh
Wanna get caught in the...

Crossfire
Put me on the wire now
Crossfire
I know it's gonna burn me out
Desire
I know it's gonna take me down
But I don't even care why you're so bad now

And I can't deny
When I look in your eyes
I see a light, I wanna ignite
'Cause it feels so right
Oh, and I can't deny
I'm getting pictures in my head
Ever since you said
Oh oh, oh oh oh

Crossfire
Put me on the wire now
Crossfire
I know it's gonna burn me out
Desire

I know it's gonna take me down
But I don't even care why you're so bad now

Crossfire
Put me on the wire now
Crossfire
I know it's gonna burn me out
Desire
I know it's gonna take me down
But I don't even care why you're so bad now

Who oh
Who oh yeah
Oh why you're so bad now
