

Hungover

MOTHICA

Blue eyes, wasted
Midnight basement
Let's pretend we're somewhere else

How did I, how did I get here?
Don't think I can, think I can stay here
I'm making friends with all of my nightmares
I'll pour one out for everyone I've been

Say goodbye to the comedown, wasted nights
You only leave me hungover, over you
You only leave me hungover, over you
Sold me lies by the bottle, every time
You only leave me hungover, over you
You only leave me hungover, over you

Double vision, fake friends, cheap gin
I'm a danger to myself and I, I

How did I, how did I get here?
Don't think I can, think I can stay here
I'm making friends with all of my nightmares
I'll pour one out for everyone I've been

Say goodbye to the comedown, wasted nights
You only leave me hungover, over you
You only leave me hungover, over you
Sold me lies by the bottle, every time
You only leave me hungover, over you
You only leave me hungover, over you
You only leave me...

Cause in the morning I don't wanna be myself
So I tried to drown myself
Maybe it's a cry for help
No!

Say goodbye to the comedown, wasted nights
You only leave me hungover, over you
You only leave me hungover, over you
Sold me lies by the bottle, every time
You only leave me hungover, over you
You only leave me hungover, over you
