

## LAST CIGARETTE

MOTHICA

Treat me like your last cigarette, ah  
Put me down and pick me up again, ah  
You can be the dagger that I put in my own back  
Make tonight the night we both regret

I'm the queen of self-sabotage  
I already decided on  
You remind me of myself  
You're dragging me through hell, I know  
I'm the blade you've been counting on  
But you don't wanna cut it off  
If you're water and I'm fire  
Why's the flame keep getting higher?

Back off, before I destroy you  
Oops, I didn't mean to, only do it 'cause I have to  
Use you, only to destroy me  
Gonna make you love me, it'll be the death of us, so what?

Treat me like your last cigarette, ah  
Put me down and pick me up again, ah  
You can be the dagger that I put in my own back  
Make tonight the night we both regret

Every time you leave you leave with a piece of me  
Gotta tripwire the door, make you come back for m-m-more  
'Cause I can't get rid of the marks  
Got your claws on my mind, on my heart  
But here we are, tattooing the scar

Back off, before I destroy you  
Oops, I didn't mean to, only do it 'cause I have to  
Use you, only to destroy me  
Gonna make you love me, it'll be the death of us, so what?

Back off  
Oops, I didn't mean to hurt you  
Back off  
Oops, I didn't mean to hurt you
