

# Toxins

MOTHICA

Come closer to me, don't be scared  
I got exactly what you need, I'll be fair

Stay for a little while, make yourself a home  
Oh, do you feel alright? Your drink is going cold  
I made it just for you, don't you like the taste?  
Every time you move's a fatal mistake

Now, I got you in my web  
Blood rushing to your head  
I'll leave you with my toxins, toxins  
Now, you're my new favorite toy to play with and enjoy  
I'll leave you with my toxins, toxins

Come closer to me, don't be scared  
The one before you couldn't see how much I care

I'm spinning through your mind everywhere you go  
Now you're in a bind, caught in my silver rope  
Caught in my silver rope

Now, I got you in my web  
Blood rushing to your head  
I'll leave you with my toxins, toxins  
Now, you're my new favorite toy to play with and enjoy  
I'll leave you with my toxins, toxins

(Now, I got you in my web  
Blood rushing to your head  
I'll leave you with my toxins, toxins  
Now, you're my new favorite toy to play with and enjoy  
I'll leave you with my toxins, toxins)
