

Stuck In The Morning

Motion City Soundtrack

If I could...

Be there for you
Be there for you now

Stuck in the morning chaos
And the setting sun
Stuck in the morning chaos
To remember

Head forward
After all is said and done
Like the Morningstar at morning recess

Transform them
From the endless afternoons
And the restless morning listens

(Stay away)
I can't afford this single sign
(Stay away)
You stand corrected
(So how am I supposed to?)
I can't afford this single sign
You stand corrected

If I could...
See you clearly
See you clearly now

Stuck in the morning chaos
And the setting sun
Stuck in the morning chaos
To remember, oh oh oh

How is the morning weather?
Do you remember weather, noon
When you were there at all

Sad sister,
Don't believe in the red one
They're so super callous fragiles bastard

Temptations
From the point of reaction
To the point of return
Time for the motor to set in motion

(Stay away)
I can't afford this sailing sun
(Stay away)
You stand corrected
(So how am I supposed to?)
I can't afford this single sign
You stand corrected

I can't afford this single one

You said it's oh, you said so

(Stay away
You stayed away)

(Stay away)
I can't afford this sailing sun
(Stay away)
You second guess, you

She said it so
She said so

From the Capital H to the city of structure
Everybody's got to, ever get away?
We never thought you'd be the same

She said it so
She said so
