

Loud

Motionless in White

You gotta be loud, you gotta be rude
So the world can hear you
You gotta be crass, you gotta be cold
It's everything we know
Turn it up, turn it up now

[Another day, a double shot of hate
Drink it up like gasoline
Underpaid, you graduate
To build somebody else's dream]
With a noose as a tie...
Do you fantasize of a much different life?
[The fix for who they want you to be
Directly streamed to your TV]

And when they turn their backs on you...

You gotta be loud, you gotta be rude
So the world can hear you
You gotta be crass, you gotta be cold
It's everything we know
Turn it up, turn it up now
Loud, rude
When nobody hears you
You gotta stand up, you gotta commit
Say, "f*ck It," make the best of it

A broken home you're trying to mend
You've got one day left to pay the rent
We're not sure, but we believe in the lie
That it'll all be fine, when we die
It's so easy to grant the mirror power to control what you want to erase
Don't become another victim

You gotta be loud, you gotta be rude
So the world can hear you
You gotta be crass, you gotta be cold
It's everything we know
Turn it up, turn it up now
Loud, rude
When nobody hears you
You gotta stand up, you gotta commit
Say, "f*ck It," make the best of it

[The money's in the treatment, baby, not in the cure
So they fuel your pain with fear and shame and then hand you a brochure]
The money's in the treatment, baby, not in the cure
So they build you up to watch you fall and then beg for an encore
What are you waiting for?
What are you waiting for?

You gotta be
You gotta be loud, you gotta be rude
So the world can hear you
You gotta be crass, you gotta be cold
It's everything we know
Turn it up, turn it up now

Loud, rude
When nobody hears you
You gotta stand up, you gotta commit
Say, "f*ck It," make the best of it
Make the best of it
f*ck it, f-f-f*ck it, f*ck it
What are you waiting for?

Another day, a double shot of hate
Drink it up like gasoline
"f*ck It," make the best of it
