

# Livin' In The No

Mötley Crüe

My girlfriend says I can't do this  
My wife says don't do that  
Another case of PMS  
Gonna have a heart attack  
I need a small vacation, man, life's a mini-wreck  
Told my lawyers and accountants, done took  
All I can take

Living in the no  
One more fucker breathing down my back  
Think I will explode

Living in the no  
Every day, everywhere I go  
Living in the no

TV says 10 dead for Christmas  
Stalker on the loose  
Another freeway shooting  
I'll be hanging by a noose

I can't seem to shake it  
I can't seem to end the spell  
Special thanks to mom and dad  
For bringing me to hell

Living in the no  
One more shark breathing down my back  
Think I will explode  
Living in the no  
How'd you like to live your life  
Living in the no

You heard what magic caught?  
One too many penthouse pets  
Get some protection baby  
Lord knows you might be next

Living in the no  
One more mother breathing down my back  
Think I will explode  
Living in the no  
How'd you like to live your life  
Living in the no

Living in the no  
One more fucker breathing down my back  
Think I will explode  
Living in the no  
Every day, everywhere I go  
Living in the no
