

## Dead for Seconds

Moto boy

Cool blush, head rush, don't know what it is you do  
Whenever someone turns around I just want it to be you  
I'm dead for seconds when I look at you  
The other side for a while any time you move  
I'm dead for seconds when I look at you, at you, at you, at you  
Slow death of faint breath when I'm not with you  
While I'm peculiar nothing turns me over like you do  
I'm dead for seconds when I look at you  
A slap in mind any time I get close to you  
I'm dead for seconds when I look at you, at you, at you, at you  
I'm dead for seconds when I look at you  
The other side for a while any time you move  
I'm dead for seconds when I look at you, at you, at you, at you  
I'm dead for seconds when I look at you  
The other side for a while any time you move  
I'm dead for seconds when I look at you, at you, at you, at you  
I'm dead for seconds when I  
I'm dead for seconds when I  
I'm dead for seconds when I  
I'm dead for seconds when I  
I'm dead for seconds when I look at you, at you, at you, at you
