

## Civil War

Motörhead

White noise is coming  
The wolf at your door  
Do you hear the drummin'?  
Outside your window  
Outside your window

Civil war, civil war  
All your yesterdays gone before  
Civil war, civil war  
Can you tell me what you're fighting for?

Soldiers of Fortune  
The traitor within  
Blood on the pale moon  
Outside your window, outside your window

Children learn to kill  
Bet your ass you'll pay the bill  
Season of the dog  
The dollar takes the place of God

Death laughs in your face  
Anarchy will take your place  
You give all your children guns  
See what you have done  
Backlash coming soon  
Joker gonna call the tune

Your children are learning  
You teach them to hate  
Your cities are burning  
Outside your window  
Outside your window
