Motörhead

Looking for an answer  
And I'm looking for a clue  
Looking for a chance to keep me sane

Looking for some peace of mind  
Tell me what to do  
Got to find a way to ease the pain

No one spoke  
Ans silence ruled the world  
And the the screams  
Still today  
I hear the pain we made  
Death Machine

Looking for a man who used to be a friend of mine  
Looking for someone to share the blame

Out there in the desert  
I almost lost my mind  
Got to find a way to shake the shame

Sky turned white  
And all the world was blind  
Nothing was seen  
Then the lights and sounds came crashing down  
Death Machine

Looking for somebody who pretends to give a damn  
Trying to to see what I still see

Sky was red and all the world was blind  
Or so it seemed  
Science ruled  
It never does no good
