

## Dust and Glass

Motörhead

Time goes by  
Days and years  
Only you and I

Wasted days  
Wasted nights  
Hurt you by and by

Fall in love  
Kill a man  
No one left to cry

Dust and glass  
Your life slides past  
No one to tell you why

So it goes  
Stranger still  
Hard times dirt and lies

Born in pain  
End in grief  
Remember this and die
