

Can you hear it  
Can you see it  
Can you feel all of my

Pain  
All of my  
Rage

Screaming out  
Pleading in agony  
No one can hear your cries  
No one is listening

It's only a matter of time until you see  
What you've done wrong  
In these times we are living in negativity  
It consumes us all

Pushed down for being who i am  
May be a prisoner but i'm still a man  
Acting like i'm so different from you  
Walk a mile in my shoes  
What the fuck would you do  
Drunk on power  
Your disorder  
It's your downfall

It's only a matter of time until you see  
What you've done wrong  
In these times we are living in negativity  
It consumes us all

Anger and fury  
Is all that drives me  
It's all i believe in  
The sickness runs deep  
Lividity

Trapped in a box with no way out  
I've let my blood  
No rest for the restless  
No peace for this man  
Can't explain what you can't understand  
Drunk on power  
Your disorder  
It's your downfall

It's only a matter of time until you see  
What you've done wrong  
In these times we are living in negativity  
It consumes us all

Lividity
