

Heartbroken

Motorband

Wait a moment, she's the one
I'd give my life for
she just wants us to try again
I just think it could be
different this time
I used to be her favourite guy

She broke your heart
she doesn't love you
Mess around your emotions
break it a new
She broke your heart
she'll do it again
Mess around your emotions
break it a new

You don't know, maybe
she'll be different this time
I just think it could work
she could be mine
Falling down, falling
deep down, falling down
and screaming it's through

She broke your heart
she doesn't love you
Mess around your emotions
break it a new
She broke your heart
she'll do it again
Mess around your emotions
break it a new

She broke your heart
she doesn't love you
Mess around your emotions
break it a new
She broke your heart
she'll do it again
Mess around your emotions
break it a new
