

The Best Of You

Motorband

Come on, come to me
it will be a fire ride
Smiling just for me
we'll drink so much, so long

Come on, speak to me
it will be a secret flight
We will smile for all
it won't be a white night

Yesterday is gone away
I feel so good and free
across the long night

You don't have a goal
you don't have a goal
Try to be ready anytime
try to do the best of you
You don't have a goal
you don't have a goal
Try to be ready anytime
try to do the best of you

The morning's coming soon
tell him to stop the loss
It was a perfect night
beat it, wasted time

Let's talk, speak to me
it will be a secret flight
We will smile for all
it won't be a white night

Yesterday is gone away
I feel so good and free
across the long night

You don't have a goal
you don't have a goal
Try to be ready anytime
try to do the best of you
You don't have a goal
you don't have a goal
Try to be ready anytime
try to do the best of you

You don't have a goal
you don't have a goal
Try to be ready anytime
try to do the best of you
You don't have a goal
you don't have a goal
Try to be ready anytime
try to do the best of you

Try to do the best of you
try to do the best of you

try to do the best of you
