

Composite Head

Motorpsycho

I've got a candyapple conscience
and the sun shines in my eyes
I'm the unforeseen stranger,
the lone ranger in disguise
I'm happy just to be here,
I'll gladly stay all day
if you feed me I'll stay over
and I'll never go away
- I'm the composite head

put the pedal to the metal
come play footsie with fate
I'm an unrepenting sinner -
your day-glo' selfportrait
I'm your conscience over easy
and I'm panting in your ear
I'm the brainwave tangodancer
from the other hemisphere
I'm happy just to be here,
I'll gladly stay all day
if you feed me I'll stay over
and I'll never go away
- I'm the composite head

I've go a candyapple conscience
and the sun shines in my eyes
I'm the unforeseen stranger,
the lone ranger in disguise
I'm the composite head!
