

No Evil

Motorpsycho

Guess it was the last time
Though I'm not really sure
The words just started melting and
Their voices began to blur
My mind it started spinning
Like it did back in high school
I heard them talking at me
And I felt just like a fool
Hear no evil
See no evil
Speak no evil
I'm never quite as brilliant
As I am when I am dumb
But now I'm feelin nothing
I'm as jaded as they come
I don't ___ at anything
Unless I'm (at a fault?)
S_____ and ignorant, I'm
_____?
Hear no evil
See no evil
Speak no evil
Believing in my grandness

Still can't spot my lie
Recognise the failure
_____ do as well
Hear me calling
Hear no evil
Watch me falling
See no evil
Over and over _____
Speak no evil
Sunk into this _____ oblivion
_____, win a million
Try hard, build a _____
Vote for me in the next election
I wasn't born to follow
But I will not ever lead
I'll die before I'm silenced
But I cannot stand to bleed
I think i might expire
But i'll never force your hand
Crying won't _____
When my head starts _____
Feel no evil
Feel no evil
Feel no evil
