

## Plan #1

### Motorpsycho

Queen bitch, slut child  
I know you so well  
you gave it all away, sister-  
you gave it all away  
but I know your eyes.....

you're just like me

Sick, filthy  
naked and abused  
I've seen you all before  
cos you gave it all away  
you raped your own pride.....  
you put too much slack on your live wire  
saw too many thrills that killed your desire  
too many nights that paled your complexion  
and made you a «nigger» in their conception of life  
....just like me  
you're just like me

see that creep  
couldn't you just smash his face?  
still don't understand  
what he's doing in this place  
I know I didn't  
when I was him  
when I was him....

you're just like me.
