

Stardust

Motorpsycho

Would you let me in your window if I asked you?
Would you let me come in?
Would you make room in your garden
If I needed a place to stay?
No faker
I won't lie, I won't cheat, no way
And if I could, I'd be on my way
No taker
I'm not here to exploit or change
Whatever it is you are brother
I'm no alien, brother
I'm all stardust just like you
How does it make you feel about yourself

When you shut me out
When you turn me away
Are you proud and are you satisfied
Or do you feel just as mystified and betrayed?
No faker
I won't lie, I won't cheat, no way
And if I could, I'd be on my way
No taker
I'm not here to exploit or change
Whatever it is you are brother
I'm no alien, brother
I'm all stardust just like you
