

Broadside Outcasts

Mott the Hoople

When a thing dies
Another will rise
It's happening all the time
Nothing can last
It's over too fast
It's never the end of the line

Just keep moving
Don't tell me it's too frightening
Keep on moving
It's no good standing still

There's an earthquake coming
Gonna knock you all flat
Now what you gonna do about that
There's an earthquake coming
Gonna turn you all on
But what you gonna do when it's gone

Don't you give in
You're gonna win
There ain't no way you can lose
Forget the past
You got the class
You're gonna be the big news

Just keep moving
Don't tell me it's too frightening
Keep on moving
It's no good standing still

There's an earthquake coming
Gonna knock you all flat
Now what you gonna do about that
There's an earthquake coming
Gonna turn you all on
But what you gonna do when it's gone

...
