

It's Our Time

moumoon

We are all set to have some fun
It's our time
This will be the best
day of our life
Cause' I'm with you
Let go of your heart
I let my hair down
Loosen up my mind
Now leave all our
concerns behind
It's our time now
now now now

It's our time now
I'm curious about
how the flowers bloom so fast
Even though nobody touches them
And color my whole world
I'm curious about
how the raindrops splash down
As they're playing
sweet melodies
And harmonize two souls
I'm curious about
how my heart beats so fast
When I look in to your eyes
I wonder how it happens
Everybody says
I'm crazy in love, I know
Everybody says
I'm crazy in love, I know
We are all set to have some fun
It's our time
This will be the best
day of our life
Cause' I'm with you
Let go of your heart
I let my hair down
Loosen up my mind
Now leave all our

concerns behind

It's our time now

So take me wherever you go

We can do whatever we want

So take me wherever you go

We see things

they will never ever see

We are all set to have some fun

We are all set to have some fun
It's our time
This will be the best
day of our life
