

## (2 Lakes)

### Mount Eerie

There were 2 lakes:

One where everyone goes  
Was found on maps and was covered in boats  
Was so shallow so, in it, things grow  
And at one of its edges, the black cliffs rose  
And down the rock, the lake's new water did pour

The second lake just beyond the cliff  
Was fed by a bottomless spring  
And still has never been seen
