

## Cooking

Mount Eerie

"Next song's called 'Cooking'. Also from Nobody's Perfect"

Maybe it's not fair to expect so much from you  
Young people of the modern mega-state  
The adults have always brought you food  
So you won't know who to ask  
How to cook  
When it's time to walk into the night alone

If you're hungry beneath the full moon  
In the dark belly of the modern mega-state  
Try to imagine a baby vulture  
Try to imagine that you could be in the world  
And the world could be in you  
And cooking food will be easy
