

Superhuman

Mourning September

I'm the fallen angel by your side
With the broken hand and stopping time
I'm the chemical that gets you by
I'm in your blood I get you high

It's not what you want (but you had to get it)
Taste my kiss black out (take it to the limit)
I'll swallow your heart (tell me where you hid it)
You will be the last to know

When the darkness comes we own the night
Take a final breath, feel your soul ignite
When the world bleeds out put up a fight
Don't get it wrong, don't get it wrong - get it right!

You never knew it
You're superhuman

Close your eyes and play your part
Won't see me coming for you in the dark
The only light is a final spark
Your body broken by a beaten parts

It's not what you want (but you had to get it)
Taste my kiss black out (take it to the limit)
I'll swallow your heart (tell me where you hid it)
You will be the last to know

When the darkness comes we own the night
Take a final breath, feel your soul ignite
When the world bleeds out put up a fight
Don't get it wrong, don't get it wrong - get it right!

You never knew it
You're superhuman

Here comes the breaking of the dawn
Accept your fate as it may come
And image carved from an eternal wisdom
Your triumph will live forever

When the darkness comes we own the night
Take a final breath, feel your soul ignite
When the world bleeds out put up a fight
Don't get it wrong, don't get it wrong - get it right!

You never knew it
You're superhuman
