You make me do things I don't wanna do
Craved on your melody
Brought me way down to my knees
Burned by our sanity
And when you kick my heart to the curb
I needed that medicine
Someone who could help me disguise
Drown all my demons out
Well, hmm

Let's call it a day
Go our seperate ways, baby
We ain't got nothin' to prove
Nothin' to lose, well
Let's call it a day
There's nothin' to say, baby
No more tears for cry
We live and we'll die
Well, hmm

We just played the roles that we had to play
Sung every melody
All that's left to face is the pain
Shine through the memories, yeah
You make me do things I don't wanna do
Craved on your melody
You brought me way down to my knees
And burned all my sanity, ey-yeah

Let's call it a day
Go our seperate ways, baby
(Go our seperate ways)
We ain't got nothin' to prove
Nothin' to lose, well
Let's call it a day
There's nothin' to say, baby
No more tears for cry
We live and we'll die
Well hmm

Let's call it a day
(Call it, call it, babe, call it, call it, babe)
Go our seperate ways, baby
(Go, we got)
We ain't got nothin' to prove
(No no)
Nothin' to lose
(Yeah well)
Let's call it a day
(Call it, call it, babe, call it, call it, babe)

There's nothin' to say, baby
(Call it, call it, call it, yeah)
No more tears for cry
(No)
We live and we die
(Wash off me wash off me)
