

## Fire

Mousse T.

Blazes a raise keeps me home tonight  
Deeper red in the Fahrenheits  
Temperature is high lyin' here with you  
So satisfied with the things you do

No need for conversation no need for words  
Let your love an electric blue whatever you prefer

I'm on fire, baby, I'm on fire  
Yeah, I'm on fire, baby, ya I'm on fire

Starspangled carnival parades on by  
Magic like the first time we were eye to eye  
Say ya don't like the taste of coffee  
And you sure hate tea  
But you could shoot a shot of whiskey  
In your good company  
So what started out as one drink  
Became half a dozen  
And you said you's in the mood  
For some good extra lovin'

I'm on fire, baby, yeah, I'm burnin'  
Yeah, I'm on fire, baby, feel me burnin'  
I'm on fire, baby, I'm on fire  
I'm on fire, baby, ya I'm on fire

Nobody turn the fire out  
I need it hot when you're aba-out  
You're body heat will set me free  
My mind is there and body...

I'm on fire, baby, I'm on fire  
I'm on fire, baby, ya I'm on fire

Fire... burnin'...  
Fire... burnin'...

I'm on fire... yeah, I'm burnin'...  
I'm on fire, baby... yeah, I'm burnin'...
