

# I Do

**Mousse T.**

I wonder why  
I don't know how  
We let it fade it away  
That was then  
This is now  
Say goodbye to yesterday

It's over now  
Said and done  
Won't do that again  
Every now and then  
(Every now and then)  
Every now and then  
I do

I think about  
What could've been  
All that we let go  
There's no doubt  
Had to end  
On with the show

It's over now  
Said and done  
Won't do that again  
But every now and then  
(Every now and then)  
Every now and then  
I do  
I do  
Whoa  
I do  
Still remember you  
I do

Yeah  
Sometimes it's this  
Sometimes it's that  
Keeps me going back  
Memories  
They come and go  
I'm just cool with that

It's over now  
Said and done  
And I won't do that again  
And every now and then  
(Every now and then)  
Every now and then  
(Every now and then)  
I do  
I do  
I do  
I do  
Baby, I do  
I do  
Still remember you

Whoa, I do  
Still remember you  
Yeah

I think about  
What could've been  
And all that we let go  
There's no doubt  
It had to end  
But it's on with the show

It's over now  
Said and done  
And I won't do that no more, no  
But every now and then  
(Every now and then)  
Every now and then  
(Every now and then)

I do  
I do  
I do  
I do  
Still remember, still remember you  
Yes, I do  
I still remember, still remember you  
Yes, I do  
Oh, I still remember you  
Yes, I do  
Still remember, still remember you  
Still remember, still remember you  
Yes, I do
