

Melodie

Mousse T.

Open up your mind and let it set you free
Yeah baby
Take a look inside to find the melody
Hey yeah
Open up your mind and let it set you free
Take a look inside to find the melody
Feel the music take control of your soul
We don't want no bodies on the floor

Open up your mind and let the music be your ecstasy
Can you feel it all right?

Take a look inside and we can find the perfect melody
We can sing it all night

Open up your mind and let the music be your ecstasy
Can you feel it all right?

Take a look inside and you can find the perfect melody
We can sing it all night
