

Some Kinda Feeling

Mousse T.

I love your touch
When you put it on me
And it feels just like a hurricane
My orange crush
So cool and so sweet
You refresh me babe in every way

Come start me up
And turn the key
Baby put my loving into drive
I got that rush, that you have given on me
Come and take it to the other side
Yeah

Don't wanna know your name
Don't wanna know mine either
Could it be love who knows
Or is it just a fever
And when we're walking home
You kiss me I awaken

Hey now baby
You got me got me and you should know

Ouu it's some kinda feeling
You give life a meaning

Ouu it's some kinda feeling
Ouu it's some kinda feeling

I love your touch
When you feel the heat
And the fires burning in your eyes
And who knows what our future will be
But the moment will be ours tonight

Don't wanna know your name
Don't wanna know mine either
Could it be love who knows
Or is it just a fever
And when we're walking home
You kiss me I awaken

Hey now baby
You got me got me and you should know

Ouu it's some kinda feeling
You give life a meaning

Ouu it's some kinda feeling
Ouu it's some kinda feeling

Some kinda feeling oh
Some kinda feeling oh
Some kinda feeling oh
I can't contain myself

Some kinda feeling oh
Some kinda feeling oh
Some kinda feeling oh

Some kinda feeling oh
Some kinda feeling oh
Some kinda feeling oh
I can't contain myself

Some kinda feeling oh
Some kinda feeling oh
Some kinda feeling oh
