

## Third Degree

### Movements

You've got your hook pretty deep in me  
Like your tongue pushing through your cheek  
Pull me in, catch and release  
Once you've had your fix  
Throw me back to bleed

But I wanna keep you  
Keep you close to me  
Keep you  
Keep you close  
Keep you  
Keep you close to me  
So I can feel you  
Be my third degree

But I can feel me slip and fall right through the cracks between your  
finger tips  
There's no going back  
There's no easy fix  
Because I know this path from experience  
I know the other side, the other side of it  
I've been on the other side more times than I'd like to admit

So I'm gonna keep you  
Keep you close to me  
So I can feel you  
Be my third degree  
Burn yourself into me  
And leave my body charred  
So when you decide to leave I can write about my scars

Spill your spirit  
Reach your limit  
Then burn my body  
Your match was me  
I'm beneath you  
Fine with being used  
Just a cheap thrill  
You could end my life and I'll still keep you

Keep you close to me  
Keep you  
Keep you close (close)  
So I'm gonna keep you  
Keep you close to me  
So I can feel you  
Be my third degree  
Burn yourself into me  
And leave my body charred  
So when you decide to leave I can write about my scars
