

Days of not sleeping
Since I said I was leaving
I know it's the right thing to do
But I just can't seem to
I tremble and start to shake
Tell me how long will I feel this way
I'm guilty of being afraid it's true
And I just can't fix it

Doctor doctor you don't have to cure me
From this pain that I'm feeling
It's all because because
Because I'm love sick
Right now I'm love sick
I know it's craziness, but I can't help it
Doctor doctor
I'm love sick love sick

Don't lose what you got now
Because it's over when it runs out
It's easy to act a fool baby
So don't be cruel to me
Wake up in a cold sweat
I hope it's better when the symptoms end
I'm stuck here waiting
I guess
Until you decide the rest

Doctor doctor you don't have to cure me
From this pain that I'm feeling
It's all because because
Because I'm love sick
Right now I'm love sick
I know it's craziness, but I can't help it
Doctor doctor
I'm love sick love sick

I wish there was some remedy
I try to run away from getting caught in a cage
Things don't always end perfectly
But it's the chance you take
Your heart is gonna break

Doctor doctor you don't have to cure me
From this pain that I'm feeling
It's all because because
Because I'm love sick
Right now I'm love sick
I know it's craziness, but I can't help it
Doctor doctor
I'm love sick love sick

Love sick love sick
Can't seem to help it
Love sick love sick
Can't seem to fix it

Doctor doctor
Oh oo oh oo
Doctor doctor

Love sick love sick
Can't seem to help it
