Mozzy

I was pouring until it ran out
Type of nigga got his hand out
My youngin thirsty for a man down
Youngin thirsty for a man down
Unless I tell that lil nigga, "stand down"
That's a murder, yeah, he tryna swap out his burner
Yeah, I'm tryna help him get further
Yeah, lately been doing these numbers
Working and working you know I deserve it
Yeah, my future was never for certain
We had to use dish liquid for detergent
Yeah, pop a whole lot of perkys
Yeah, still idolize David A Perkins
Yeah, make it drizzle while she twerkin'
Gang tatted on the bitch in cursive
Word, first one out there on the first
Word, keep a bundle on my person
Word, keep a thumper on my person
Nigga say the scale tweakin tryna work us
Yeah, I got a mean rap I had to earn it
Niggas really putting work for this surface
Got a mean rap I had to earn it
Four finger banging bitch this the murders
Nigga really putting work for this surface

I do or die for this shit
I flooded all my chains because they want me in the grave
They don't want me rich
Did it all with my wrist
I did it all by breaking down and weighing up and serving all who need a fix
I ain't afraid
I ain't afraid
How far we came to live this way
My goons we straight
I ain't afraid
I ain't afraid
To die today cause I made my way
I stayed the same
Can't never change, won't ever change
No

You know I ran out of dope
Finna cook some more
Hoe broke as shit, she ain't put me on
Dirty ass black hoodie put it on
And you know exactly who we looking for
Couldn't find him so he finna live some more
I was taking trips, why you wouldn't go
Kicked a 100 doors, how you end up broke
Ya I fucked your bitch, I ain't kiss her though
Fuck with Akhiana shit we trippin though
Fuck you bitchin for, shut up listen hoe
I love you niggas, I let all the shooters know
Make no mistake, it's who I do it for
10k or better just to do a show
And I keep it cloudy in the coupe alone
And I'm liable to slither through alone

When you God's child you can move alone
Do it three way for my little bro
When this bitch answer I'ma mute the phone
Drug dealer dreams we was moving zones
Nerves bad baby I can barely roll
Damn Nem can't believe you niggas gone
Damn Perk can't believe you niggas gone
Damn Zoe can't believe you niggas gone
Damn Deezy can't believe you niggas gone

I do or die for this shit
I flooded all my chains because they want me in the grave
They don't want me rich
Did it all with my wrist
I did it all by breaking down and weighing up and serving all who need a fix
I ain't afraid
I ain't afraid
How far we came to live this way
My goons we straight
I ain't afraid
I ain't afraid
To die today cause I made my way
I stayed the same
Can't never change, won't ever change
No

Do or die for this shit
