

Beautiful Struggle

Mozzy

Everyday struggle
Such a beautiful struggle though
Know a nigga managed to overcome it all
Swear to God I been tryna get my life right
For the benefit of my Dooterz

And I'm just tryna get my life right
In this thunderbucket cause I'm tryna shake the limelight
Its still spunky so we do that shit on eyesight
All he heard was fireworks and all he seen was bright lights

Trife life, when you live in my environmental
Bitches let me utilize the vehicle, slidin in em
Candles lightin up the streets, cause he died in em
Toilets connected to the sinks, do ya time nigga
I know it ain't no future in this way a livin
The way we livin, either death or on our way to prison
If you ain't shootin you's a victim, make a decision
Its opiates in my system the way I be sippin
I ain't listen when they told me I should finish school
They booked the shooter on a murder that they couldn't prove
Its so much pain in these opticals Im lookin through
And its fuck the sucka side, I just wanna cook his soup
My nigga doin time, need a couple books and soup
Cause we dont do the drive by, bounce out and foot it through
My mama always talk bout "Look what you put me through"
Push a nigga facials in when I be pushin through
Bleed the stoop, Im just tryna cop a 'Cedes coupe
If you dont want these flesh wounds then I advise you play it smoothie
It ain't Gucci or Gabbana unless I say its cool
Its recreation to a goon when we make a move
Yeah, ain't no hesitation all my shootas yankin
Heavy metal mechanism, oiled down and lubricated
Ima take you on a journey if you trustworthy
I got a yiki for the low that ma fucka dirty
Keep a couple hand torches in a Jansport
Im from Pebble Beach, thats a historic landmark
And we the realest out the region ain't no sense in lyin
If you gone go to jail and tell well ain't no sense in slidin
The murder rate climbin, we promotin violence
Back doored him with a curve ball homie Nolan Ryan
Type to get it out the mud, uzzy bleed the canvas
With the same ones from day one no room for expansion
My life damaged I managed to overcome it all
GSR on my paws shit Im finna scrub it off
Coulda got a diploma but I fucked it off
Public defender geekin he just truckin off
You interactin with the law, we dont fuck with yall
When it be time to slide Im to the neck, I never come to yall
Dick and balls on the blammatory, mandatory
The consequences of this shit come with the territory
Dick and balls on the blammatory, mandatory
The consequences of this shit come with the territory

And I'm just tryna get my life right
In this thunderbucket cause I'm tryna shake the limelight
Its still spunky so we do that shit on eyesight

All he heard was fireworks and all he seen was bright lights
