

CAN'T SAVE ME

Mozzy

(Hello?)

Uh-uh, bitch, not right now, my baby daddy on the other line
Yeah, girl, you calling from Folsom, free him)
Do-do-do, do-do-do
Yeah

Can't save me
The streets keep callin'
Can't change me, no
Came from the bottom, now I'm deep in
Can't save me, yeah
The streets keep watchin'
Can't blame me, no
Swimmin' with the sharks in the deep end

Yeah, niggas couldn't save me if they wanted
Every dream I ever had was haunted
Seen some shit you couldn't stomach
It's the reason for these buttons
It's the reason for unnecessary clutchin'
When you thuggin', I'm on top of shit
Shooter got away, remained anonymous
Lungs pierced, he no longer here, ran out of oxygen
Young nigga, premature death, it happen frequently
Karma hawk you down when you be on that type of frequency
Granny end up leavin' me, still mad about it
Should've spent a little more time and I feel bad about it
'Cause she believed in me
I can't explain how much that mean to me
I still don't see the attributes that lady seen in me
Made it though
Bailed you out without you askin' what you hatin' for
Was out of love, just tryna save a soul
I guess I'm 'posed to take the blame for shit I can't control
Like the day your son ain't makin' home
Pray God, put me with the squadron when he take me home
Is it a heaven for the gangsters? I'm just makin' sure
Ain't tryna be alone
You really love me, then correct me when you think I'm wrong
Teary eyed when I think of bro
'Cause niggas 'posed to be here
Need a shoulder blade to cry on? I'ma be there
Miss Retarded Mike like he just left and it's been three years
The trenches cheer me up like, "It's aight, 'cause nigga, we here"
Oh

Can't save me, no, no
The streets keep callin'
Can't change me
Came from the bottom, now I'm deep in
Can't save me, yeah
The streets keep watchin'
Watchin'
Can't blame me, no
Swimmin' with the sharks in the deep end

Fire up, I'm in the back of the Benz

Double-lapped 'em, finna lap 'em again
I'm relapsin' again, got my hands on all pharma
Ain't scared of O'D'in, 'cause that's the price of our karma
I'm just numbin' my trauma
Shit ain't nothin', your Honor, I took the time and smiled
'Cause I got members doin' life without
My girly faces, couldn't imagine doin' life without 'em
I excel when I don't look as doubtin'
Was counted out, but niggas suck at countin'
Attorney asked me for a hundred thousand
Coughed it up, it's part of bossin' up
Double back on all the drops, you gotta follow up
Pray he don't talk, 'cause it'll fall on us
It's either all or nothin'
I took a trip with bro who switched, it was all for nothin'
Fell back to keep the lawman from us
Quit rappin' 'bout my storyline, you wasn't involved in nothin'
Just checkin' on 'em when I'm callin' youngin'
That nigga, dodge the button

Can't save me, no, no
The streets keep callin'
Can't change me
Came from the bottom, now I'm deep in
Can't save me, yeah
The streets keep watchin'
Watchin'
Can't blame me, no
Swimmin' with the sharks in the deep end
