Get 'em gone immediately that's how you feed the team
The bottom of my feet black the way I bleed the streets
But smart enough to keep the chicken, y'all can keep the streets
For those who got a crate up out me, you can keep the yicks
For those who got a chain up out me, you can keep the links
I'm felein' like I'm to the necklace if we keep it G
But did too much to tell the killers we should keep the peace
They tried to say I fell off like nigga reached his peak (Huh)
I send condolences to Hus as well as M.E.D
I'm really out here with these sharks, I been in it deep
Demons keep me up at night, I hardly get to sleep
