

# Don't Play Fair

Mozzy

I'm all over my thang, more drug for the pain, I'm stuck in my ways, yeah  
Nigga fuck what you claim, nigga fuck what you bang, yeah  
Don't smud on my name, I'm platinum addiction, on God  
All that actin' suspicious, I crack on your physics (On God)  
Slappin' extention, this half a prescription, got me feelin' godly  
They normalize the drugs when a nigga family is zombies  
What you say 'bout the Mozzy? They don't play 'bout the Mozzy (Yeah)  
Retaliation, man don't flagrant foul on the ackee  
Finally made it up out it, was givin' back 'fore I got it  
Remember vivid who died, it feel good we did it without 'em  
Count it then double count, it ain't nothin' we ain't encounter  
Hunnid K on the counter, let the youngin' devour

The trenches don't play it fair, but I made it up out it  
Took it on the chin, every L I encountered  
I gotta, double back again and get my niggas up out it, yeah  
Just to show that it's a way, around it

Integrity what we live by (What we live by)  
Loyalty level, won't ever switch side (Yeah, yeah)  
Integrity what we live by (What we live by)  
If it's a condition, know that  
Loyalty level, won't ever switch side (Yeah, yeah)

They ain't want me to win, they fell in love with my struggle  
Pointin' at all my losses, victories undiscovered  
Money is only money, see rich to me's livin' comfy  
People don't show you love 'til they miss you or you can help 'em, oh my  
I've been low, I feel  
Like a low life  
I'm a low stabber, ain't got no advice, yeah  
Don't know what's comin', but I know it's likely  
Ain't nobody told me, money make this world divisive  
I see some under pressure, 'cause this shit overpricin'  
And now they under jail 'cause they ain't know they over powered  
And you've been all crazy, like you really earned it  
The day the trenches play it fair, the trenches (Yeah)

The trenches don't play it fair, but I made it up out it  
Took it on the chin, every L I encountered  
I gotta, double back again and get my niggas up out it, yeah  
Just to show that it's a way, around it

Integrity what we live by (What we live by)  
Loyalty level, won't ever switch side (Yeah, yeah)  
Integrity what we live by (What we live by)  
If it's a condition, know that  
Loyalty level, won't ever switch side (Yeah, yeah)

Ain't no fair way to play it, but carry that cater  
Or carry your partner, yeah  
Better stay off that net, if stay with your momma  
Race to these commas, straight to the dollar  
That's out of question  
Time is of essence, since seven knew we was destined  
Niggas made it out (Out, uh)  
How you my dawg, and ain't applaud, what's all the hate about? (Now, uh)

I'm one of the ones to show my face, when you facin' counts (Counts, uh)  
I tend to love with all my heart, I need the same amount  
And we once prayed about these days  
'Cause all this paperwork, this surface's got me stand up out their way (Sand up out their way)  
Can't nobody save you, baby, ain't nobody safe (Ain't nobody safe)  
Drummy got 'em jammed, he though he standin' on a K (He standin' on a K)  
Enhance what's on the charges, I'ma blend behind my game

The trenches don't play it fair, but I made it up out it  
Took it on the chin, every L I encountered  
I gotta, double back again and get my niggas up out it, yeah  
Just to show that it's a way, around it
