

Felt It

Mozzy

I do this on behalf of my niggas
Cause when I ain't had shit my nigga
All I had was my niggas
So I salute the air to my niggas
Four finger bangin nigga

The way I'm feelin, you ain't felt it I felt it
I cry a little bit I can't help it
I'ma real nigga

The way Im feelin, you ain't felt it I felt it
I cry a little bit I can't help it
My blood brother died I couldn't help him
And I ain't get to tell him all the shit I had to tell him like
I love you big bruh, you's a real nigga bruh
One of the only ones that I'd drill a nigga for
Just on behalf of ya gangsta
Compared to you, these niggas half of a gangsta
Cause in the second half they gone change up, I seen it happen
Get it out a bitches booty, I dont eat from rappin
Keep it on me homie, even when I dont need the ratchet
I got killas in the call log, easy access
Crack the gates for a real nigga, Leezy Active
We in traffic off the Actavis and cookie crumbs
Lookin foward to a body, we dont look for love
Said we dont look for love
And fuck the other side, you know we shook em up

The way I'm feelin, you ain't felt it I felt it
I cry a little bit I can't help it
I'ma real nigga

Tryna maintain, wearin the same thang
.40 without a stain, brand newkie out the box
Shhh, you hear that? Thats shootin down the block
You make a statement bout it we gone chew you wit the chop
You know the cup muddy it be gooey when I cop
My brother doin life and still do it for the block
Doin it front the cops, we call it on sight run it
I ain't movin out the hood, its kinda hard when you love it
Vulnerable by yourself, but you hard out in public
When you wit a hunnid niggas and you muffin, thats fuck shit
Fuck everything in ? when it come to this
We really sittin down for that 1-8 somethin shit
Hit a lick without tuckin shit, thats loyalty
We come from nothin so we gunnin for this royalty
Hit a lick without tuckin shit, thats loyalty
We come from nothin so we gunnin for this royalty

And you ain't felt it, I felt it
I cry a little bit I can't help it
Ima real nigga
And you ain't felt it, I felt it
