

## Interlude

Mozzy

Yeah, who I'm pose to turn to for guidance  
I feel like I lack a lil' knowledge  
I know I never make it to a campus of a college  
We the ones used to pick on the scholars  
I been too concerned with gettin' dollars  
I been too concerned with all this Gucci all these Robbins  
I been too concerned with trying move all of this product  
Product of my environment on how I was brought up  
My patna still in the hospital, his body shot up  
Look at who they brung in the office after Obama  
I ain't even vote, I know I'm part of the problem  
At the same time, I'm showin' you how to prosper  
Came up from nada to shoppin' at  
Cause we came up from nada to shoppin' at  
Mama say she proud of us, proud of you too mama  
Cause now I know what you been through mama

Pain never heals  
I done ran out of pills  
I be scared that it's real  
What I say about this is  
Hit my dougie in the field  
Made it here without a deal  
Tryna run a nigga pennies when I'm worthy of them Ms  
I just roll with my people to Beverly Hills  
Even them tricks thuggin for years, baby it's real  
Lot of wear and tear on me, from all the homies we buried  
When you take field trips you better know where to kill

Yeah, I mean this shit crazy how far we came right  
Just lookin' back on this shit like, man  
No king should ever stop us  
Yeah, uh, look

See you might take a loss, but you live and you learn  
They say the, ones that you love are the quickest to turn  
And the more you play with fire, then the quicker you burn  
I ain't concerned with that, hit the gas, dip and I swerve my nigga aye  
Tryna turn this bucket to a Benz truck aye  
Me and Mozzy tryna get these Ms up aye  
Took some Ls been tryna get my wins up  
God lookin' down but I been gettin' my sins up  
Word to mama she pray for me on the daily  
Know this lifestyle is wildin' I drive you crazy but  
I'm all in like I'm tryna own the casino  
I just feel like my life is movie by Scorsese  
Look at how far we came, this shit is crazy  
Used to have to spread Top Ramen, how could you blame me  
All this money couldn't take away these scars  
But I guess they only there so we don't forget who we are, right?
