Yeah, the struggle made me like this, fool
I got my lil niggas doing what the kite say do
My life ain't bool, shit mainey as fuck
If Fuzzy call me then I'm pullin' up with K's when I come
You's a nerd, never spent a day in the slums
I spent my whole life tryna get away from the slums
It was hexa, hella extra shots placed in the drums
Niggas hungry, they'll shoot you in the face for them crumbs
Loyalty and love, both one and the same
Loyal to what I love, never mumble your name
They can sign me right now, homie, nothin' would change
Cause the streets embedded in me, I come from the gang
Rappin' ass niggas known for tuckin' they chains
My active ass niggas known for bustin' they thangs
Still in the field with it, we running these plays
Crack the gates for all the real shooters stuck in the cage

I been around in these streets for a minute
Niggas hate to see my face, so fuck gettin' tinted
If the streets want me dead, then niggas gonna need to bring it
I'm one of the youngest real niggas that still breathin'
Twelve on my ass but I'm still on my pivot
Gotta get it cause I lost another nigga to the system
Suckas switchin' plans, both sides with them bitches
Ask the streets about us, Lord know we them niggas
Switching lanes, blowin' cookie, sippin' syrup, countin' chicken
Take a Rolls on a mission, gang task takin' pictures
If you slippin', it's a killing, you in the way you a victim
Man down, come and get 'em, we can't confirm the description
Can't squeeze, need a yankee? Hell yeah you can get it
Got niggas skippin' states, run away from
They don't wanna hear the fireworks 'til we hit some'
