

No Way

Mozzy

Tell 'em 'bout it
You know the blind lead the blind, don't let 'em misguide you
Know these niggas been bleedin' the stoop for a lifetime man
Got nothin' goin' on, if it ain't beneficial, it's artificial
I know it get slimy out here, gotta keep one up top
It's mad niggas gettin' picked off, yo
Know I wanna see a nigga prosper, G-O-D
Breathe easy though, for real
Bulletproof

Shit ain't the same, niggas done changed
Blame it on me, success and the fame
I become numb to the stress and the pain
Way that I rock, it reflect on my gang
Put some respect on my name
Picked up a tool, put in work with that thing
Granny woke up, went to work every day
Just to bail her son out, seen her hurt every day
Sometimes I break down and pray
'Member we cop and we break down the yay
Kick down the door and then split what we take
Run that shit back, nigga break down and play
Suckers slid through and we came out with K's
Killers bite down when they come out the cage
Jumped off the porch, I was young for my age
With Flowers and Yak on my way to the grain
Like I miss my nigga, why you let 'em get my niggas?
Why you let 'em get my nigga? Real hit stick nigga
Back to back trip on you niggas, back to back trip on you niggas
Like I miss my nigga, why you let 'em get my niggas?
Why you let 'em get my nigga? Real hit stick nigga
Back to back trip on you niggas, back to back trip on you niggas
Prometh' sipper, probably why the ho bitch trippin'
Noddin' off, countin' out chicken, may the Lord be the witness
Do it for the niggas in the slums, I don't just do it for the image
You know the Gangland drillin', Callahan things on deck
All type of Caddys and they say I didn't work for half a million
Tell that lil' nigga keep playin' with me, I'ma put a bag on the ceiling

As my guy Mozzy say, you know
God up top
