

Overcame

Mozzy

Mook on the beats

Ayy, how I'm 'posed to tell my youngin go to school
When they just caught him at the lightrail, stripped him for his jewels, huh
?
How I'm 'posed to tell my auntie not to use
When she ain't got no other means or methods to numb abuse?
I know your pain, baby
But look at all the other shit you overcame, baby
In search of love, only reason why we gangbangin'
Dove in them bloody waters, granny can't save me
It's how the game made me

If you ain't slid for your woes, can't respect that (Gangland)
Raised the road up like my own and I regret that (Gangland)
Thought the bitch chosed on him, intercept that (Uh-huh)
Your brudda slid in a remodel with a check trap
Ayy, can you smell it through the wrapper, this a fresh pack
If you convince him just to rap it, that's a death trap
Your partner text you 'bout a murder, never text back
Shout out the niggas yellin', "Mozzy, bring Mess back"
I was only worth a hundred when I left Sac' (On God)
And now it's multiple millions, they ain't expect that (On God)
If you don't transfer the wire, I come collect that
Forever Fourth, ain't no way I'm gon' neglect that
Bitch, my gang affiliation got me feelin' kaydas
I bet it leave an exit wound after penetratin'
Fuckin' 'round at G-O-D, we ain't intimidated
I'm built for it, this the process of elimination

Ayy, how I'm 'posed to tell my youngin go to school
When they just caught him at the lightrail, stripped him for his jewels, huh
?
How I'm 'posed to tell my auntie not to use
When she ain't got no other means or methods to numb abuse?

Yeah, naked ladies 'cause they smack harder
This red rag'll introduce you to the black-hearted
Slidin' Regal with utensils off of jack artists
Back to back blammy cases on the last charges, fuck it though
'Cause I got niggas in the bounty never comin' home
Not guilty, goggles, some slacks, and a little button-on
We was sellin' dope to the family like it was nothin' wrong
Pull up on the side of your vehicle, throw a hundred stones
Woah, is that lil' bro out front the corner store?
I told him go to school, he said they got him where the suckers go
Almost had to burn a nigga twice, made him tuck and roll
Ain't no longevity in it, just being a hundred though
These niggas go to pointing fingers after taking trips
Should've took it on the chin, you did some mainy shit
I love you, auntie, never blame you for the way you live
You gotta get yourself together 'fore they take your kid

Ayy, how I'm 'posed to tell my youngin go to school
When they just caught him at the lightrail, stripped him for his jewels, huh
?
How I'm 'posed to tell my auntie not to use
