

# Pain Killers

Mozzy

You know I just got off the phone my ma  
I told her the baby's straight  
State to state nigga, pull up activities

I'm on these pain killers tryin' not to feel it  
Every time we shoot, we aimin' for the ceilin'  
Body count risin', you can blame the killers  
Lost so many niggas, that's what made us killers  
I'm on these pain killers tryin' not to feel it  
Every time we shoot, we aimin' for the ceilin'  
Body count risin', you can blame the killers  
Lost so many niggas, that's what made us killers

Used to be a broke nigga, that ain't nothin' new  
Now check out the faces a nigga thumbin' through  
Always down to smoke niggas, that ain't nothin' new  
the homies focused on it too  
To be accounted for your body count, show and prove  
When all the odds is against you, you're supposed to lose  
Called momma last night like what I'm supposed to do?  
How would you feel if you felt death approachin' you?  
I already lost the niggas I was closest to  
You don't wanna live like this lil nigga go to school  
Such a beautiful struggle, that's how I vision life  
Niggas screamin' free tea still ain't sippin' kite  
Black on black crime, that's a nigga life  
As a people we too ignorant to get it right  
So you can get it on site for breakin' at a light  
Left him in a left lane, finna pave the right

I'm on these pain killers tryin' not to feel it  
Every time we shoot, we aimin' for the ceilin'  
Body count risin', you can blame the killers  
Lost so many niggas, that's what made us killers

Four in a big , six in a Fanta  
By the end of this year I'm tryna flip panomera  
Niggas hatin' on the L gang squad, can't stand us  
Church everybody kush crumbs on my denim  
Rollin' while I'm drivin', too high no limit  
I can sip the Lord juice and I still don't feel it  
Came from the bottom, I show you how we flip shit  
Young D boy but I'm still on some pimp shit  
Success costs your life, you gon' have to risk it  
If you don't know the game just sit back and listen  
Disrespect the game, fuck around, and be a victim  
Niggas playin' both sides of the field, I don't get them  
If you find some real niggas I'm probably with them  
If you find some fuck niggas we gon' kill them  
Attempted murder, he was lucky, God was with him  
real niggas, we don't get them

I'm on these pain killers tryin' not to feel it

Every time we shoot, we aimin' for the ceilin'  
Body count risin', you can blame the killers
