

## PAST TENSE

Mozy

They tried to line the one I love, I had to tap him in (Buckrol  
l)

On a big bitch, start tappin' in  
Yeah, heavy metal mechanism, nigga  
Hexa hella extra on the mozzarella, fella

Why am I talkin' 'bout you past tense?  
Why would you leave me with these nerves? You got me mad as shi  
t  
Why was the unity so pure when we wasn't havin' shit?  
Why would you force my hand to funk with you? I had to trip  
Why would betrayal be the motive? Thought I had a friend  
They tried to line the one I love, I had to tap him in  
We head tapped the opposition when we slammin' cig'  
I'm rich now, look what rappin' did, look what rappin' did

This that I can't go to sleep without a pill call  
I answer when the real call 'cause it ain't many left  
It ain't respected if you on the 'net sendin' threats  
You gotta act on that and post, 'cause it'll get you stretched  
They ain't consider how I feel before the killers left  
Like I'm just strong enough to carry what we built together  
You taught me love will never die, nigga, this shit forever  
It fucked me up, thought we was 'posed to get these M's togethe  
r

With whatever, when I call, he's a button presser  
Twin yoppers and a Yoda, that's a double-decker  
The love from the plug real if he frontin' extras  
Then turn around and tell you he don't want for nothin' extra  
Tucked the Tesla, it got high-def surveillance on it  
Bang a corner, grab the tooly, do some maintenance on 'em  
They gon' think this shit sweet if we ain't yankin' on 'em  
And act like they ain't lost a gang of homies, cap  
The hardest part about me grievin', I can't get 'em back  
That's life though, I gotta live with that, yeah  
The hardest part about me grievin', I can't get 'em back  
I gotta live with that, damn

Why am I talkin' 'bout you past tense?  
Why would you leave me with these nerves? You got me mad as shi  
t  
Why was the unity so pure when we wasn't havin' shit?  
Why would you force my hand to funk with you? I had to trip  
Why would betrayal be the motive? Thought I had a friend
