

Real Ones

Mozzy

Seen shit that'll change your life for real
They had my big brother for a long time, he been tryna fight for appeal
I know some real ones and they ain't here
Lost a lot of real ones I never shed tears
We in them European's fish tailin' changin' gears
Play the mirror, cause it's serious plus them people on my rear
Forced to blow them hammers ain't no human that I fear
I know when the love is hella fake and when it's pure

(Yeah)

My life mainey now, niggas really made it out
I was pullin skits 'fore Ghazi and Nima came around
Ain't no postin' blicks on they Insta I make 'em take it down
Back-to-back funeral services shit'll break ya down
If you got dreams by any means you better chase 'em down
Tears fallin' as I face the clouds
I seen some shit that I can't say out loud
I did some shit that wouldn't make ya proud
Put all my trust inside these kayda rounds (Yeah)
District attorney be smurkish' they tryna work us but
Prints were inconclusive ain't find that bitch on my person
Tell 'em watch where they mergin', we lurk with intent to purgin'
Pullin' up when it's urgent, bouncin' out with them squirters

Seen shit that'll change your life for real
They had my big brother for a long time, he been tryna fight for appeal
I know some real ones and they ain't here
Lost a lot of real ones I never shed tears
We in them European's fish tailin' changin' gears
Play the mirror, cause it's serious plus them people on my rear
Forced to blow them hammers ain't no human that I fear
I know when the love is hella fake and when it's pure

Can match yo energy
Just tell me how you want it
I got lil niggas that'll dump it out the Focus
You don't know about young niggas that so happen to run shit
And I keep a two-piece with me I ain't talkin' 'bout drumsticks
Know the real and the fake, been through trial and tribulations
Went from getting it out the projects now we flying to different places
Made sure all my real ones had a Rollie face
I'm the streets motivation
Saw my lil niggas catch the coldest cases
Before I was ever famous, I don't show locations
Ran that shit up and kept it quiet like a mason
Whenever you focus on the lies it knock off concentration
I don't see nothin' with these eyes and I don't never say shit

Seen shit that'll change your life for real
They had my big brother for a long time, he been tryna fight for appeal
I know some real ones and they ain't here
Lost a lot of real ones I never shed tears
We in them European's fish tailin' changin' gears
Play the mirror, cause it's serious plus them people on my rear
Forced to blow them hammers ain't no human that I fear
I know when the love is hella fake and when it's pure
