

SEEN IT ALL

Mozzy

'Til death due us apart, it's heavy on my heart
I'm ready, if these niggas plot against me, I'ma spark
Stash in the whip, the law against me, play it smart, yeah
Thuggin' on the block, fist fight at the park
Always knew my role, always play my part
Tough niggas gon' judge me, but only six can hold the coffin
Light shine through a cage, but from a casket, it look dark

Ah, I can't die tonight (I can't die tonight)
So I'm gon' ride tonight (So I'm gon' ride tonight)
I seen it all, see my niggas fall
Told 'em, "Believe in me," I show up when they call
We was taught that you can't never tell what you saw (No)
We'll take another chance if it ain't on you at all
If it ain't on you at all

Yeah, talkin' down, got him hawked down (Got him hawked down)
Foot soldiers, everybody with the walk down (Walk down)
Had to pay him for his jumper, way he ball out (Yeah)
You don't follow through, we liable to fall out, cut his ass
Put a crate of choppers on it 'cause I love to Ave
She ain't doin' GFE, then she don't want a bag
This nigga hit me on the dice and told me, "Run it back"
Put a body on the slam, he don't want it back
When I was broke, all I wanted was a hundred pack
The label hit me up and doubled that
Scraped the curb in the Urus and then I brung it back
Handlebars off of hella bars, yeah (Off hella bars)
Up a couple of Mberlies, I'd never starve
He ain't one of ours, then we gon' let him starve, fuck him
Lost bruh to the politics, I'm forever scarred
So it's forever smoke, I can never let it go

Ah, I can't die tonight (I can't die tonight)
So I'm gon' ride tonight (So I'm gon' ride tonight)
I seen it all, see my niggas fall
Told 'em, "Believe in me," I show up when they call
We was taught that you can't never tell what you saw (No)
We'll take another chance if it ain't on you at all
If it ain't on you at all

Suicidal thoughts, but I ain't got the courage to do it
I been thinkin' maybe syrup will do it
You ever drown in your tears? That's what I been currently doin'
'Cause pain ain't 'posed to feel like this, it's a different feelin'
I been going through hella real life shit
Popped a Percocet, but still it exist, that wouldn't even heal it
Kept it real, how I ain't the realest? (How I ain't the realest?)
Shared my testament, it came with millions, it's part of God's plan
It's bigger than me, it's in God's hand
Remind myself that I'm just a man, what you expect from it?
Hope I'm forgiven for my sins, I don't regret nothin'
Kept it stitch and still ain't said nothin', yeah

Ah, I can't die tonight (I can't die tonight)
So I'm gon' ride tonight (So I'm gon' ride tonight)
I seen it all, see my niggas fall

Told 'em, "Believe in me," I show up when they call
We was taught that you can't never tell what you saw (No)
We'll take another chance if it ain't on you at all
If it ain't on you at all

I can't die tonight
I can't die tonight
