

Slimey

Mozzy

Gangsta to the bone, I'm on yo head about my goons
Pray I never have to eat another spread inside that cube
Disregard the suckas talkin' spicey on the tube
Them niggas sick from recent losses, slimey is the move

Gangsta to the bone, I'm on yo head about my goons

I ain't fuckin' with my niggas on no social site
That EDD will give you 20 if the social right
The sucka must ain't get the memo that it's on for life
He wanna box like we ain't put his partner in a box
I hate the niggas that don't slide but always send the drops
And my behind the arc is pretty, ain't gon' miss a shot
I look for signs, I'm tryna see if you gon' switch or not
It's cinnabuns on everything when woahdy spin the block
Don't stick your nose inside my business, shit will get you popped
Not only jeopardize my freedom but I risk a lot
My youngin' twelve and raisin' hell, can barely lift the chop
I shit you not, he pull that thang and take the shit you got

Gangsta to the bone, I'm on yo head about my goons
Pray I never have to eat another spread inside that cube
Disregard the suckas talkin' spicey on the tube
Them niggas sick from recent losses slimey is the move

Hey I get tired of all the lies
Like when you see me, you gon' slide
'Cause when you see me you be vibin' like you love a nigga
And all these cases they got open, they still hunt a nigga
I spent 100 for this chain, why would I tuck it nigga?
Hey that lil Cartier too plain, go 'head and bust it nigga
I treat him like he got the Covid, I don't trust you niggas
I heard it's up then tell him book me for a show or somethin'
I bet I show up like promoters and them owe me somethin'
We smokin' cutie by the onion, it's exotic flavors
They turn lil dootie to a doobie, he was not a gangsta
Your resume has been displayed and it ain't nothin' major
I kept it player 'bout these bitches, y'all be player haters

Gangsta to the bone, I'm on yo head about my goons
Pray I never have to eat another spread inside that cube
Disregard the suckas talkin' spicey on the tube
Them niggas sick from recent losses slimey, is the move
