

TURN YOUR BACK

Mozzy

How could you turn your back on me?
Your back on me
Turn your back on me
Don't let me down
How could you turn your back on me?
Turn your back on me
You were my day one
Did you forget where we came from?
Whoa, yeah

Yeah, I expected y'all to cross me and you did that
But I ain't never took no loss without no get back
If we was brothers like we thought, we coulda fixed that
Instead of intervening and gettin' between us, nigga, sit back
But nevermind the past, though I miss that
Real and fake ain't never been no mixture, that's a mismatch
Been that, I can't let 'em play with my gangsta
Put my faith inside this KEDR, that's my guardian angel

Put my people in position whenever I'm able
I put you on, you went against me, you forever a traitor
I can't respect them type of niggas, no
Gotta let them type of niggas go
They say it's different strokes for different folks
This ain't the first time it happened, I been here before
Lost Zoe, ain't wanna live no mo', that's really bro
Niggas act like they was present, they wasn't in them woes
Niggas act like they was steppin', they wasn't in them loads

How could you turn your back on me?
Your back on me
Turn your back on me
Don't let me down
How could you turn your back on me?
Turn your back on me
You were my day one
Did you forget where we came from?
Whoa, yeah
