

# Defying Gravity

Mr. Big

I was trapped in a bubble of ordinary  
And I'm dying for a little mystery  
Tearing away with the mask on my face  
Changing my ancient history  
I have faith in my fate  
I am not afraid

I won't be a victim of circumstances  
If I don't hear the music, I can't dance  
What am I worth if I don't take a turn  
I crash and I burn, I took my chance  
I have faith in my fate  
I am not afraid

The eyes of the world  
The way they weigh me down

Time has come when I'll be gone  
Beyond the great unknown  
I'll be flying free, defying gravity  
Cut the strings and say a prayer  
And take off on my own  
Me, I'm flying free, defying gravity  
Gravity, defying gravity

I was born with the heart of a true believer  
At the top of the tree the fruit gets sweeter  
Just good enough is never enough  
Man, I'm just a dreamer

The eyes of the world  
The way they weigh me down

Time has come when I'll be gone  
Beyond the great unknown  
I'll be flying free, defying gravity  
Cut the strings and say a prayer  
And take off on my own  
Me, I'm flying free, defying gravity  
Gravity, defying gravity

Somewhere out there there's a place where I belong  
In a wondrous garden where the voices in my head are gone

Time has come when I'll be gone  
Beyond the great unknown  
I'll be flying free, defying gravity  
Cut the strings and say a prayer  
And take off on my own  
Me, I'm flying free, defying gravity

Time has come when I'll be gone  
I'll be flying free, defying gravity  
Cut the strings and say a prayer  
Me, I'm flying free, defying gravity
